Application to move existing connection (service alteration)

Are you the landowner / tenant for this development?

Yes

No

If no, we cannot provide a formal quotation for the alteration works without agreement from the current owner and/or occupier of the premises.

Please indicate a preferred date for works (month, year)

If you have received from us a previous estimate or quotation for this work, please provide our reference

Please provide existing MPAN (13 digits, found on your electricity bill) or existing meter serial number

Existing supply type

Single phase

Split phase

Three phase

Please select all of the following that apply:

Existing connection to the premises is overhead (attaches to chimney or gable end)
Existing connection to the premises is underground
Move meter position to a new external location
Move meter position to a new internal location
Replace all of existing overhead line with underground cable
Replace part of existing overhead line with underground cable
Alter route of overhead line from pole to premises
Alter position where overhead line attaches to premises
Alter route of existing underground cable around new building works / construction / landscaping

If requesting a meter position move, please indicate approximate distance between existing and proposed meter positions

metres

Please note that our quotation will not include the cost of moving your consumer unit or wiring, and you must appoint a Registered Electrician if this work is necessary.

The meter position must not be sited in a kitchen, bathroom, shower room, toilet, adjacent to a sink or any other location deemed to be unsafe for installation of the equipment. The equipment must be accessible to enable safety inspections without removal of fixtures.

Please sketch a layout of your premises in relation to an identifiable road. Indicate your required service alteration, including existing and new meter positions where applicable. There are example sketches in the appendix.

If you can, please include annotated photographs of your property and incoming service with your application. These are particularly helpful where your existing service is an overhead line. If you are sending your application via e-mail please attach these additional files.

Need some help?

➤ Call us on 0800 0483516

➤ Write to us at:
